

Dr Chen Wenli is an Associate Professor with the Learning Sciences and Technology (LST) Academic Group at the National Institute of Education (NIE), Nanyang Technological University (NTU). Her research interests include computer supported collaborative learning, mobile learning, and ubiquitous learning environment. Dr Chen's school-based research projects addresses the challenges of transforming and enhancing teaching and learning, and apply her research outcomes to impact school practices. Through routine engagement of ICT enhanced learning activities, she has been working closely with schools to enhance students' collaborative learning skills and higher order thinking.

Dr Chen is the Editor-in-Chief for Journal of Computers in Education, the Associate Editor for Research and Practice in Technology Enhanced Learning, and the Advisory Editor for Asia Pacific Education Review. She has led a number of national scale research projects and published one book and more than 60 papers on international peer-reviewed journals. She has won more than 10 Best Paper Awards in international conferences.

She was presented the prestigious "Young Researcher Leader Award" by the Asia-Pacific Society for Computers in Education (APSCE) in 2011. She received the "Excellence in Teaching Commendation" in 2015 from National Institute of Education and won the "Nanyang Education Award" from Nanyang Technological University in 2016. She is the co-Chair for the International Conference of the Learning Sciences (ICLS) 2016, the Programme Committee Chair for Global Chinese Conference on Computers in Education 2014, and the Organizing Committee Chair for International Conference on Computers in Education (ICCE) 2012.
